

NEEDLE VALVE STAINLESS STEEL

Material : Stainless Steel Gr. 304

Special Features

- Investment cast components
- The needle valves are ideal for effectively controlling high pressure oil and steam
- Packing nut can be tightened to adjust stem packing
- Completely free from pin-holes and cracks

Dimension

Nominal Diameter	Source Joint	Dimension				
		Do	L	H	H1	d
6	1/4	60	55	92	102	4
10	3/8	60	58	90	100	5
15	1/2	65	60	97	107	6
20	3/4	80	68	109	121	8
25	1	100	78	122	132	10
32	1 1/4	140	95	180	191	15
40	1 1/2	160	110	200	215	18

NEEDLE VALVE FORGED STEEL

Material : Forged Steel

Special Features

- Investment cast components
- The needle valves are ideal for effectively controlling high pressure oil and steam
- Packing nut can be tightened to adjust stem packing
- Completely free from pin-holes and cracks
